

**Please Amend the Specification as Follows:**

*On page 2, please amend the paragraph beginning at line 3 as follows:*

--For achieving an active decoration, it is ~~more~~~~ever~~~~more~~over possible to integrate light emitting diodes (LEDs) into the cover, which LEDs are switched on and off according to signals provided by a micro-controller provided in the cover. The light provided by switched on LEDs is then visible to a user through the outer surface of the cover.--
